2.) What makes Isagenix unique? Why are these products and this system different than "all the others"? Isagenix nutrition addresses two major issues: environmental toxicity and nutritional depletion. Our amazing shakes address all of your nutritional needs and, when partnered with our cleansing system, the results are phenomenal. Check out this video (6 minutes) that explains Isagenix very well. <https://vimeo.com/151725765>

4.) Why is intermittent fasting so successful? Take a look at this visual. I was the person who repeatedly dieted, lost weight, but then a few months later would rebound. Finding a 'diet' that worked both on work days and off was impossible. But with Isagenix, it has been incredible to finally maintain, and now I understand why cellular cleansing/intermittent fasting is so important.

## **9.) 9:30PM \*\*(Kristin) - Pak Options**

Value Pak: Our first and BEST option for getting started is the Value Pak 95% of the people who get started start with our Value Pak which will truly give you the most accelerated results so you feel your absolute best. Within this pak you are getting 30 days worth of products: two meals, two snacks, \*\*Ageless Essential am/pm vitamins (amazing for health and overall nutrition), meal replacement bars, energy shots, 5 piece cleansing system, chocolates, skin sampler, and free blender. Everything you need for the 30 days with exception to the one meal of your choice (lunch or dinner). You're saving on over 70+ meals for the month!! This pak is \$18/day plus shipping and you get FREE ENROLLMENT. \*Pricing may vary a few dollars based on some of the packaging options you choose below.

\*\*Remember all paks, you get a 30 day money back guarantee with all the products so if there are any products at all that you are not thrilled about you can get a refund within your first 30 days or swap them out with something else.

\*\*The ageless essential vitamins cover all the nutrition you need from your daily vitamins and help with energy. The vitamins are amazing and fill in the gaps of the essentials your body needs. Check out this article on the vitamins. <http://shar.es/1nRJxh>

\*\*Comment on value pak post with the premium and basic - post w pic of pak -

Premium Pak: The second option is the 30 day Premium Pak. This will give you BETTER results than the basic 30 day but still not the best optimal ones you would see from the Value Pak. This pak includes the following: two meals, two snacks, meal replacement bars, energy shots, 5 piece cleansing system, chocolates, and free blender. This is \$14/day plus shipping and you get FREE ENROLLMENT.

30 Day Basic Pak : The third option is the 30 day Basic Pak. This pak is the bare bones of the value pak above and does not have the vitamins, bars, snacks, hydrate, or energy shots. This is \$10/day plus enrollment (\$29) and shipping.

\*\*All of the programs come with a guide telling you when to take what on your shake days vs. your cleanse days. You can also customize it based on your schedule. It gives you meal ideas to stay within the suggested calories so you see the best results as well.
