Simply Redirect Some of Your Food Budget

According to USA Today:

- On average, 10% of income goes toward food costs, which is about \$660 per customer, per month
- That \$660 includes \$372 on food at home and \$288 on food consumed away from home, including fast-food, takeout, deliveries, vending machines, and food trucks

HERE'S THE MATH ...

3 meals per day x 30 days per month = 90 meals per month

\$660 ÷ 90 meals per month = \$7.33 per meal, per person

1 Whole Blend IsaLean® Shake is less than \$4 a serving
